

Dear Mr. ,

Attached you will find the second addendum to the M&R 2015, Baradeel II.

During a meeting between Frisa Zout and SodM* back in November 2016, some action items for Frisia/WEP were defined and have been dealt with.

We do understand that the results of those action items have not been shared/communicated sufficiently enough with SodM.

Understandably this created some confusion because the results of the investigation (action items) led to no significant changes in the newly submitted version of the M&R 2015.

The attached addendum is meant to provide the missing information and close the gap. In case of further questions please do not hesitate to contact me.
