Dear

As a follow-up of the last quarterly meeting, I´d like to share with you the new proposed procedure to analyze subsidence caused by salt extraction.
Please find enclosed the following two documents for your viewing pleasure:

1. ***"Review subsidence analysis 1995-2015 & Proposal 2017"***

- FRIMA/FRISIA historical evolution of subsidence evaluation and path forward
- provides background information and outlines the current limitations/restrictions

2. ***"Proposal New Procedure 2017"***

- description of the proposed new levelling-survey data analysis

was so kind to dedicate some of his time to create this proposal. He will also join the meeting on Jan 9th.
The most recent leveling survey was completed end of 2017 and the relevant data sets will be processed by the Antea Group throughout January 2018.

Kind regards,

Hoofd mijnbouw
